

Preparing conscious leaders to initiate inter-connected communities and projects rooted in ancestral wisdom.

EUROPEAN PROGRAMS – SUMMER 2018

Medicine of the Sacred Wheel: Ancestral Wisdom for a Modern World

Join us in a collaborative dynamic in circle to explore the following topics:

What are our deeper subconscious motivations to manifest a new world?

What is the root of pollution and sickness contaminating our society and consciousness?

How can we form ourselves as real leaders of change in front of the challenges we face?

What is the practical strategy to change our current collective reality, and how can I personally participate to this movement?

For the first time, our intentional community and non-profit association will journey through the European lands, offering a unique approach to answer these questions. Working with the wisdom and practices of authentic ancestral traditions, we address these concerns of the modern age.

Through our programs, we will:

- define and refine our motivations to participate to the global ecological movement emerging today
- learn how shamanism can be a mystical path of leadership formation
- discover the universal structure and dynamic of the Sacred Wheel and how it can potentialize all areas of one's life, integrated into the spiritual path
- connect to authentic traditions and practices which guide us in the awakening of consciousness of our true identity and service
- practice circle consciousness, permitting us to learn how to build long-lasting and thriving intentional communities
- identify and start learning how to transmute collective subconscious conditionings (false ideologies, visions, unexamined beliefs or assumptions, mental and emotional functioning's etc.) that block our path to manifesting a new world in the dynamic of complementarity
- explore practical strategies to manifest local grass-root projects and communities that can constitute a weaving of healthy cells up to the global level of society (e.g. through systems of representation and councils, clan enterprises).

Our community-lead programs include...

> Daily Chanting Circles

> **Traditional Ceremonies**

> Sweat Lodge

> Discussions in circle consciousness

> Personal mentoring and life planning

> Healthy organic vegetarian food

> **Classes and workshops** on such themes as...

- ◆ The philosophy and dynamic of the Sacred Wheel and its application to our lives

***Weekend Encountering's:** We plan to make a few short programs of 3 days on the occasional weekend. If you are interested to attend one of these, please contact us and we will provide more details about when and where they plan to happen.

Camping Programs: As we are travelling as a big team with all our own camping equipment, unfortunately we cannot carry additional tents with us! Therefore, camping programs require you to bring your own tent and sleeping bags. We will provide the food and other basic living necessities!

Prices: We have tried to price our programs as fairly as possible considering that we are flying a large team from Peru, who will not financially gain from offering these programs. Program prices have been made to cover the costs of running the program (including rent we need to pay for the land, travel and food costs). Therefore, if you feel that these programs are worth more and you have financial means, we warmly welcome further donations which can also facilitate us to offer programs to those with less economic means.

For those who are motivated for a program but have financial difficulties, please contact us.

Program re-allocation: If the program you enrol in is not sufficiently full then we will re-allocate you to another program of your choice, or if none correspond to you, we will give you a refund.

How to Book

As we are now opening for enrolment, there is no longer the opportunity to register your only your interest in these programs. In order to secure yourself a place on one of our programs, please fill out our [application form](#) as soon as you can. Once we have received it, one of our team will contact you with information of how to pay your (non-refundable) deposit (30% of the total price of the program).

Contact

If you have any questions or issues filling in your application form, please feel free to contact us. We will be happy to hear from you!
